The items listed below are those that the provider was not in compliance with at the time of the inspection.

Compliance Plan Action #1

Administrative Rule:

67:42:17:27

Before any medication is administered to a child, permission of the parent or guardian must be documented and must include the name of the child, the name of the medication, and the dates, times, and dosage of the medication. The medication must be provided by the parent and kept in the original container, with the original label. The label for a prescription medication must contain the child's name, the amount and frequency of dosage, the expiration date, the physician or other licensed practitioner's name, and instructions for storage. The medication must be returned to the parent when no longer needed or expired. The provider shall document, in the child's record, any medication administered to a child and shall include the dose, the name of the child, the time and date administered, and the name of the person administering the medication. The documentation must be retained for at least six months and be made available to the child's parent upon request.

Summary of Non-Compliance Finding:

Two providers failed to administer a child's medication as specified on the Medication Authorization form completed by the child's parent.

Corrections to be Made:

Providers must ensure that all medication is administered to the child as requested by the parent and documented on the Medication Authorization form.

Corrections Made:

The providers who did not ensure the administration of a child's required medication have completed additional training on medication administration. Additionally, the program has updated its medication administration policy to strengthen compliance and accountability. The Office of Licensing & Accreditation (OLA) will conduct a follow-up visit to verify compliance with these changes.

Compliance Plan Action #2

Administrative Rule:

67:42:17:44

All toxic or hazardous substances must be:

- (1) Inaccessible to children;

- (2) Used according to manufacturer's instructions;
- (3) Stored in the original or other labeled container; and
- (4) Disposed of according to manufacturer recommendations.

Bio-contaminants must be handled and disposed of properly. Soiled diapers must be changed promptly, in a designated area, on a non-porous surface. The diaper changing area must be clean and disinfected with a sanitizing solution approved by the department. Soiled diapers must be kept in a leakproof, nonabsorbent container that is covered with a tight-fitting lid.

Summary of Non-Compliance Finding:

It was determined that providers in one classroom did not promptly change children's soiled diapers.

Corrections to be Made:

The classroom will ensure soiled diapers are changed promptly, as outlined in ARSD 67:42:17:44.

Corrections Made:

The program has updated its diaper changing policy to ensure that diapers are changed in a timely manner. The Office of Licensing & Accreditation (OLA) will conduct a monitoring visit to verify that the program is adhering to the revised policy.
