- (8) Other hazardous condition as identified by the department.

The department may direct a provider to remove or correct a hazardous condition or circumstance not covered in this chapter, if the department considers the conditions or circumstances to have the potential to cause injury or illness to the children in care.

Summary of Non-Compliance Finding:

At the time of inspection, the playground equipment had a broken slide that had been removed, resulting in a platform measuring more than 30 inches above ground level without a surrounding railing. The program explained they are in the process of replacing the slide. In the meantime, a board will be placed to block the opening and prevent injuries.

Corrections to be Made:

A platform measuring more than thirty inches above ground level, must be blocked off or surrounded by a railing that is at least thirty-six inches tall with no more than five inches between openings.

Corrections Made:

Verification received on 3/26/25 that slide has been repaired and reattached to the playground equipment. There is no longer an open platform.
