### Compliance Plan Action #1

#### Administrative Rule:

67:42:17:35

Playgrounds for all child care settings must be safe, in good repair, and free of debris, trash, and weeds. Playground equipment must be installed according to the manufacturer's instructions and maintained in good repair.

For a center program, a fence that measures at least four feet high is required around the center's outdoor play space.

For a family day care or school-age program, a fence that measures at least forty-two inches high may be required to separate the outdoor play space, if the department determines a body of water, vehicular traffic, or other hazard poses a risk of injury or death to a child.

#### Summary of Non-Compliance Finding:

During a complaint investigation conducted by the Office of Licensing & Accreditation, it was determined that small wading pools were being set up in the program's parking lot area, which is shared with nearby businesses, rather than within the fenced-in playground.

#### Corrections to be Made:

Since the program's fenced playground area meets the required height of 4 feet, it must be used for all outdoor play activities, including the use of wading pools. The program will no longer use the shared parking lot for water play and will instead place all wading pools within the fenced playground area.

#### Corrections Made:

At the time of the investigation, the program agreed to discontinue the use of wading pools outside the fenced playground area. Wading pools will not be used until the fenced area is prepared and deemed suitable for water play.
