Administrative Rule:

67:42:17:23

A family day care provider may care for up to twelve children in the provider's home. A family day care provider shall, at all times, supervise children by hearing or seeing children and be close enough to intervene.

If only one provider is present, no more than four of the children may be under the age of two years, and no more than three of those children may be under the age of one.

If a family day care assistant is present, no more than eight children may be under the age of two.

A family day care provider's own children, if under the age of six, must be included in the total capacity and ratio.

Summary of Non-Compliance Finding:

During a complaint investigation conducted by the Office of Licensing & Accreditation, it was found that the provider had 15 children in her care, which exceeded the allowable capacity.

Corrections to be Made:

The provider will ensure that no more than 12 children are present in care at one time.

Corrections Made:

The provider has agreed to ensure that no more than 12 children are in care at one time and has removed two children from her roster to comply with this limit.
