---

The items listed below are those that the provider was not in compliance with at the time of the inspection.

### Compliance Plan Action #1

**Administrative Rule:**

67:42:17:44

All toxic or hazardous substances must be:

- (1) Inaccessible to children;
- (2) Used according to manufacturer's instructions;
- (3) Stored in the original or other labeled container; and
- (4) Disposed of according to manufacturer recommendations.

Bio-contaminants must be handled and disposed of properly.

Soiled diapers must be changed promptly, in a designated area, on a non-porous surface. The diaper changing area must be clean and disinfected with a sanitizing solution approved by the department. Soiled diapers must be kept in a leakproof, nonabsorbent container that is covered with a tight-fitting lid.

**Summary of Non-Compliance Finding:**

Diapers

were being disposed of in a trash can that did not have a lid.

**Corrections to be Made:**

Diapers must be disposed of in a container that has a tight fitting lid.

**Corrections Made:**

The Provider purchased a container with a tight fitting lid to dispose the diapers in.

**Anticipated Completion Date:**  
September 25, 2025

**Date Completed:**  
September 25, 2025

### Compliance Plan Action #2

**Administrative Rule:**

67:42:17:37

Center and school-age programs operating outside of a school building shall follow applicable construction and fire safety requirements, as outlined in chapters 61:15:05 and 61:15:06. School-age programs operating in a school building shall follow applicable construction and fire safety requirements, as outlined in chapters 61:15:01, 61:15:02, and 61:15:07.

A family day care home must have the following fire safety measures in place:

- (1) A working smoke detector must be located on each level of the home;
- (2) A fully charged, portable fire extinguisher, with a minimum 2A rating, as identified on the extinguisher label, must be kept in or within fifteen feet of the kitchen or food preparation area;
- (3) A carbon monoxide detector must be installed, according to the manufacturer's instructions, if a fuel burning appliance is present in the home;
- (4) Each level of the home must have at least two remote exits that shall remain clear of obstructions. One of these exits must be a standard-sized door, and the other may be either a standard-sized door or an unobstructed, operable window, having at least five square feet of openable space, with a minimum width of twenty inches and a minimum height of twenty-four inches; and
- (5) Whenever a portable space heater, a wood burning stove, or a fireplace is in use, the heater, stove, or fireplace must be inaccessible to children.

**Summary of Non-Compliance Finding:**

The required fire extinguisher was not at the facility. A fire extinguisher was not visible, or observed, in the facility. Staff could not locate the fire extinguisher. A carbon monoxide detector was not visible in the facility, and the staff did not know where one is.

**Corrections to be Made:**

A fully charged fire extinguishers with a minimum 2A rating is needed at the daycare. The daycare needs a carbon monoxide detector installed according to the manufacturer's directions.

**Corrections Made:**

A fully charged fire extinguisher with a 2A rating was added in the kitchen area. A carbon monoxide detector was installed at the daycare according to the manufacturer's directions.

**Anticipated Completion Date:**  
September 25, 2025

**Date Completed:**  
September 25, 2025

**Compliance Plan Action #3**

**Administrative Rule:**

67:42:17:32

All walls, ceilings, floors, and equipment must be easily cleanable, kept clean, and in good repair. Heating and cooling systems must maintain a temperature between sixty-five degrees Fahrenheit and seventy-five degrees Fahrenheit. For a child care center and school-age program, all heating and cooling systems must be inspected annually, by a certified

technician.

Food preparation areas, including tables and countertops, must be made of a smooth, nonporous material, kept clean and sanitized, be free of cracks, and be in good repair. Center and school-age programs, in which more than twenty children are cared for, must provide a ventilation hood over all cooking areas. The hood must be appropriate for the type of appliance and intended use, as required in § 61:15:01:01.

**Summary of Non-Compliance Finding:**

The heating and cooling system was last inspected in October of 2023.

**Corrections to be Made:**

The heating and cooling system needs to be inspected annually.

**Corrections Made:**

The heating and cooling system was inspected by a qualified service technician.

**Anticipated Completion Date:**  
September 25, 2025

**Date Completed:**  
September 25, 2025

**Your signature below certifies you have read and understand the non-compliance findings and agree to make corrections to be compliant with the identified administrative rules.**
