The items listed below are those that the provider was not in compliance with at the time of the inspection.

Compliance Plan Action #1

Administrative Rule:

67:42:17:32

All walls, ceilings, floors, and equipment must be easily cleanable, kept clean, and in good repair. Heating and cooling systems must maintain a temperature between sixty-five degrees Fahrenheit and seventy-five degrees Fahrenheit. For a child care center and school-age program, all heating and cooling systems must be inspected annually, by a certified technician.

Food preparation areas, including tables and countertops, must be made of a smooth, nonporous material, kept clean and sanitized, be free of cracks, and be in good repair. Center and school-age programs, in which more than twenty children are cared for, must provide a ventilation hood over all cooking areas. The hood must be appropriate for the type of appliance and intended use, as required in § 61:15:01:01.

Summary of Non-Compliance Finding:

At the time of the inspection, there is a hole in the wall in the Freshman room behind the door that opens to the main hallway. The School Age room has a hole in the wall behind the door next to the sinks. Activity room support beams found with paint chipped and baseboards loose.

In addition, there was no documentation of the annual heating and cooling system inspection.

Corrections to be Made:

These areas to be repaired and maintained in good repair. Documentation of repairs to be provided to the Office of Licensing and Accreditation.

Documentation of the current heating and cooling inspection to be provided to the Office of Licensing and Accreditation.

Corrections Made:

Photos of repairs made in the Freshman room, the School Age room and the Activity room were received on 11-07-25. See document section for details.

On 11/13/2025 a copy of the heating and cooling system inspection was received.

Compliance Plan Action #2

Administrative Rule:

67:42:17:33

A provider shall meet the following requirements regarding bathrooms:

- (1) Bathroom facilities must be easily accessible by children and providers;
- (2) Hot water for faucets normally used by children in care may not exceed one hundred twenty degrees Fahrenheit;
- (3) Toilets and hand sinks must be kept clean and in good repair; and
- (4) For child care centers and school-age programs:
 - (a) All bathrooms must have natural or mechanical ventilation;
 - (b) Separate bathrooms must be available for males and females;
 - (c) Ratios for toilet and hand sinks must align with the minimum standards for plumbing and plumbing systems published by the plumbing commission.

Except in a family day care, hand sinks must be in the same room, or an unobstructed room adjacent to the diaper changing area. A handwashing sink used after diapering and toileting may not be used for food preparation.

Summary of Non-Compliance Finding:

At the time of the inspection a nursery room employee placed a bag of breastmilk in the sink that is labeled for handwashing and ran water on it to warm it up.

Corrections to be Made:

A handwashing sink used after diapering and toileting may not be used for food preparation.

Corrections Made:

Infant room staff were reminded by the director that handwashing sinks are not to be used for bottle preparation. Staff agreed to follow this procedure beginning immediately and moving forward.

Compliance Plan Action #3

Administrative Rule:

67:42:17:37

Center and school-age programs operating outside of a school building shall follow applicable construction and fire safety requirements, as outlined in chapters 61:15:05 and 61:15:06. School-age programs operating in a school building shall follow applicable construction and fire safety requirements, as outlined in chapters 61:15:01, 61:15:02, and 61:15:07.

A family day care home must have the following fire safety measures in place:

- (1) A working smoke detector must be located on each level of the home;
- (2) A fully charged, portable fire extinguisher, with a minimum 2A rating, as identified on the extinguisher label, must be kept in or within fifteen feet of the kitchen or food preparation area;
- (3) A carbon monoxide detector must be installed, according to the manufacturer's instructions, if a fuel burning appliance is present in the home;
- (4) Each level of the home must have at least two remote exits that shall remain clear of obstructions. One of these exits must be a standard-sized door, and the other may be either a standard-sized door or an unobstructed, operable window, having at least five square feet of openable space, with a minimum width of twenty inches and a minimum height of twenty-four inches; and
- (5) Whenever a portable space heater, a wood burning stove, or a fireplace is in use, the heater, stove, or fireplace must be inaccessible to children.

Summary of Non-Compliance Finding:

At the time of the inspection, there was no documentation of an annual sprinkler system inspection available.

At the time of the inspection, there was no documentation of an annual fire alarm system inspection available.

Corrections to be Made:

Documentation of the annual sprinkler system and fire alarm system inspection to be provided to the Office of Licensing and Accreditation.

Corrections Made:
