The items listed below are those that the provider was not in compliance with at the time of the inspection.

### Compliance Plan Action #1

**Administrative Rule:**

67:42:17:21

A center or school-age program must maintain the following ratios:

- (1) Five children to one staff for children up to three years of age;
- (2) Ten children to one staff for children three through four years; and
- (3) Fifteen children to one staff for children five years and over.

Children of program employees must be included in determining the children to staff ratio.

**Summary of Non-Compliance Finding:**

The program was found to be out of compliance with required staff-to-child ratios for children under age 3.

**Corrections to be Made:**

Staff-child ratios must be maintained at all times, including the required ratio of one staff member for every five children under the age of three.

**Corrections Made:**

The program has adjusted its staffing schedule to ensure an additional provider arrives earlier to accommodate varying child arrival times. The program director will also meet with classroom providers to review procedures to follow if a classroom approaches or exceeds the ratio requirements.

Additionally, the program director will communicate with families whose arrival times vary in order to help prevent classrooms from becoming out of ratio.
