Summary of Non-Compliance Finding:

The program did not have tamper resistant/self-closing outlets.

Corrections to be Made:

Tamper-resistant/self-closing outlets must be installed in the building and verification of completion must be submitted to the Office of Licensing and Accreditation.

Corrections Made:

The program sent in picture verification that self-closing outlets were installed.

Compliance Plan Action #2

Administrative Rule:

67:42:17:35

Playgrounds for all child care settings must be safe, in good repair, and free of debris, trash, and weeds. Playground equipment must be installed according to the manufacturer's instructions and maintained in good repair.

For a center program, a fence that measures at least four feet high is required around the center's outdoor play space.

For a family day care or school-age program, a fence that measures at least forty-two inches high may be required to separate the outdoor play space, if the department determines a body of water, vehicular traffic, or other hazard poses

a risk of injury or death to a child.

Summary of Non-Compliance Finding:

A fence is required around the center's outdoor play space. Currently there is no fence.

Corrections to be Made:

A fence must be installed, and verification of completion must be submitted to the Office of Licensing and Accreditation. Due to the winter season, the program has requested additional time to complete the installation. Until the fence is installed, the program will ensure constant and direct supervision during all outdoor play activities.

Corrections Made:

The fence was installed and verification was submitted to the Office of Licensing and Accreditation.

Anticipated Completion Date:

June 01, 2026

Date Completed:
