The items listed below are those that the provider was not in compliance with at the time of the inspection.

Compliance Plan Action #1

Administrative Rule:

67:42:17:19

Maximum group sizes are determined by individual room capacity and all space used must be approved for care by the department.

The provider shall ensure the number of children in care at any given time does not exceed the capacity identified on the license. Children of program employees must be included in the group size.

The provider shall ensure children to staff ratios are maintained in all settings, including large indoor and outdoor space; in spaces where more than twenty children are allowed, providers shall identify which children each provider is responsible to supervise; and when room capacity does not align with the ratio requirements, a maximum of three additional children may be included in the room capacity as long as ratios are maintained.

Summary of Non-Compliance Finding:

During inspection, the mobile infant area was over capacity by one child.

Corrections to be Made:

The provider will ensure that the individual room capacity is maintained moving forward.

Corrections Made:

Moving forward, the provider will ensure that individual room capacity does not exceed the maximum limit outlined in the capacity review letter.

Compliance Plan Action #2

Administrative Rule:

67:42:17:27

Before any medication is administered to a child, permission of the parent or guardian must be documented and must include the name of the child, the name of the medication, and the dates, times, and dosage of the medication.

The medication must be provided by the parent and kept in the original container, with the original label. The label for a prescription medication must contain the child's name, the amount and frequency of dosage, the expiration date, the physician or other licensed practitioner's name, and instructions for storage. The medication must be returned to the parent when no longer needed or expired.

The provider shall document, in the child's record, any medication administered to a child and shall include the dose, the name of the child, the time and date administered, and the name of the person administering the medication. The documentation must be retained for at least six months and be made available to the child's parent upon request.

Summary of Non-Compliance Finding:

At the time of inspection, one child's EpiPen had expired.

During inspection, one child's non-prescription medication had expired and did not have a corresponding medication administration form.

Corrections to be Made:

The provider will ensure that a valid EpiPen is obtained and maintained on site for the child with allergies.

The provider will ensure that the expired medication is returned home with the parent(s).

Corrections Made:

Documentation of the child's renewed EpiPen was received.

Verification that the expired medication was sent home with the parents was received on April 21, 2026.

Anticipated Completion Date:

May 12, 2026

Date Completed:
