Compliance Plan Action #1

Administrative Rule:

67:42:17:27

Before any medication is administered to a child, permission of the parent or guardian must be documented and must include the name of the child, the name of the medication, and the dates, times, and dosage of the medication.

The medication must be provided by the parent and kept in the original container, with the original label. The label for a prescription medication must contain the child's name, the amount and frequency of dosage, the expiration date, the physician or other licensed practitioner's name, and instructions for storage. The medication must be returned to the parent when no longer needed or expired.

The provider shall document, in the child's record, any medication administered to a child and shall include the dose, the name of the child, the time and date administered, and the name of the person administering the medication. The documentation must be retained for at least six months and be made available to the child's parent upon request.

Summary of Non-Compliance Finding:

The program did not have written authorization for the EpiPens and inhalers in its possession. Additionally, the medications were onsite with the original labels attached.

Corrections to be Made:

The program will secure written authorization for any EpiPens and inhalers it possesses and will provide a copy to the Office of Licensing and Accreditation.

The program will provide the Office of Licensing and Accreditation with a picture of the medications with their original labels.

Corrections Made:
