The items listed below are those that the provider was not in compliance with at the time of the inspection.

Compliance Plan Action #1

Administrative Rule:

67:42:17:38

The following must be inaccessible to a child:

- (1) Firearms;
- (2) Pellet guns, BB guns, and cap guns;
- (3) Matches and lighters;
- (4) Tobacco products;
- (5) Choking and strangulation hazards;
- (6) Items capable of being pulled or tipped onto a child;
- (7) A platform measuring more than thirty inches above ground level, unless surrounded by a railing that is at least thirty-six inches tall with no more than five inches between openings; and
- (8) Other hazardous condition as identified by the department.

The department may direct a provider to remove or correct a hazardous condition or circumstance not covered in this chapter, if the department considers the conditions or circumstances to have the potential to cause injury or illness to the children in care.

Summary of Non-Compliance Finding:

During a complaint investigation conducted by the Office of Licensing and Accreditation, it was determined that unsafe storage practices created a safety hazard for sleeping infants. Items stored near sleeping areas fell onto infants during two separate incidents, including an item from a shelving unit and a sound machine that had been improperly positioned above a crib.

Corrections to be Made:

The provider will ensure that any identified hazardous conditions or circumstances that could potentially cause injury to children in care are immediately corrected or removed.

Corrections Made:

Immediately following the incidents in November 2025 and May 2026, the directors met with infant room providers to address the identified hazards. Infants sleeping on mats will no longer be placed near shelving units, and sound

machines have been removed from areas where they could pose a risk of falling onto infants.
