A child's records, photographs, and information about a child or the child's family may not be shared or publicly posted, unless the parent signs a consent form. Nothing in this section prevents licensing specialists, child protective services, or law enforcement from accessing the files and records of a provider or family information.

Summary of Non-Compliance Finding:

Corrections to be Made:

The provider will obtain and maintain written documentation indicating parental permission or denial of permission to release or share photographs of the child and will also submit a written plan outlining the procedures that will be implemented to ensure all child records are reviewed for completeness and that photo release documentation is obtained and maintained for every enrolled child.
