Compliance Plan Action #1

Administrative Rule:

67:42:17:21

A center or school-age program must maintain the following ratios:

- (1) Five children to one staff for children up to three years of age;
- (2) Ten children to one staff for children three through four years; and
- (3) Fifteen children to one staff for children five years and over.

Children of program employees must be included in determining the children to staff ratio.

Summary of Non-Compliance Finding:

During an unannounced complaint investigation, it was determined that the required staff-to-child ratio was not maintained in the three-year-old classroom. It was observed that 12 children were present with one staff member. The required ratio for this age group is one staff member to 10 children.

Corrections to be Made:

The program must submit a written plan outlining how the required staff-to-child ratios are maintained at all times in the three-year-old classroom. An unannounced monitoring visit will be conducted to verify that the plan has been implemented and that the required ratios are being maintained.

Corrections Made:

Verification of compliance was received.

Anticipated Completion Date:
October 29, 2026

Date Completed:
