Issue/Corrections To Be Made:

The Provider reported that a child was not accounted for after the child's classroom transitioned from the gym and the child was left behind.

Program staff are responsible for the direct care, protection, guidance, and supervision of every child in care.

Correction: During a staff meeting, the director reviewed the transition process to account for children to ensure the incident does not reoccur. The program has implemented additional steps to account for children in care during periods of transition. An active supervision class will be provided by Sanford Children's Child Services to all program staff.
